DEPARTMENT OF DEFENSE**Department of the Army; Corps of Engineers****Availability of the Draft Supplemental Environmental Impact Statement for the Missouri River Fish and Wildlife Mitigation Project Located on the Missouri River From Sioux City, Iowa to the Mouth Near St. Louis, MO in the States of Iowa, Nebraska, Kansas, and Missouri****AGENCY:** Department of the Army, U.S. Army Corps of Engineers, DoD.**ACTION:** Notice of availability.

SUMMARY: This announces the availability of the Draft Supplemental Environmental Impact Statement (DSEIS) for the Missouri River Fish and Wildlife Mitigation Project located on the Missouri River in the States of Iowa, Nebraska, Kansas, and Missouri. The Mitigation Project was first authorized by the Water Resources Development Act (WRDA) OF 1986, which included the development of 48,100 acres of

aquatic and terrestrial habitat for fish and wildlife along the 735 miles of the Missouri River between Sioux City, IA and St. Louis, MO. The WRDA of 1999 modified the Mitigation Project by increasing the amount of habitat development by 118,650 acres to a total of 166,750 acres. The DSEIS assesses the potential environmental impacts of the modified Mitigation Project, which includes the development, restoration, or enhancement of fish and wildlife habitat on an additional 118,650 acres on individual sites purchased from willing sellers and through easements. The purpose of the Mitigation Project is to restore fish and wildlife habitat losses resulting from the construction and development of the Missouri River Bank Stabilization and Navigation Project (BSNP). Seven alternatives are considered in the DSEIS and three alternatives are analyzed in detail including a Preferred Action, No Development alternative, and No Action alternative.

DATES: The public comment period for the DSEIS will end 45 days after publication of the notice of availability in the **Federal Register** by the U.S. Environmental Protection Agency. Comments on the DSEIS should be received no later than November 4, 2002.

FOR FURTHER INFORMATION CONTACT: Kelly Ryan, US Army Corps of Engineers, Kansas City District, Attn: CENWK-PM-CJ, 601 East 12th Street, Kansas City, MO, 64106-2896, Phone: 816-983-3324.

SUPPLEMENTARY INFORMATION: 1. The U.S. Fish and Wildlife Service, U.S. Environmental Protection Agency, Iowa Department of Natural Resources, Kansas Department of Wildlife and Parks, Nebraska Game and Parks Commission, and the Missouri Department of Conservation are serving as cooperating agencies on the preparation of the DSEIS.

2. Three alternatives are considered in detail in the DSEIS:

a. The Preferred Action alternative includes the development, restoration, or enhancement of fish and wildlife habitat on an additional 118,650 acres on individual sites purchased from willing sellers and through easements. Included in the 118,650 acres would be the construction or restoration of approximately 7,000 to 20,000 acres of shallow water habitat to achieve a goal of 20-30 acres per mile along the 735-mile BSNP.

b. The No Development alternative includes the acquisition of 118,650 acres on individual sites purchased from willing sellers or through

easements, however, there would be no subsequent habitat development or construction activities.

c. The No Action alternative would not develop, restore, or enhance any additional acres for fish and wildlife habitat except for that previously authorized under WRDA of 1986 or that of other state or Federal programs.

3. Open house public meetings on this DSEIS will be held from 4:30 p.m. to 6 p.m. and formal public hearings for the purpose of receiving comments will begin at 7 p.m. at the following locations:

a. October 8, 2002—Lange Middle School, 2201 E. Smiley Lane, Columbia, MO.
